

RIVER GROVE LIONS

presents "Wingfest"

In Support of Wheels for Karolina

Karolina is a kindergarten student who resides in River Grove. Karolina has Spinal Muscular Atrophy. Her physical therapist recommends that she gets "e motion wheels" which are essentially power assist wheels that attach to her existing wheelchair; the cost of these wheels are not covered by her family's insurance. The wheels only require the lightest touch to activate. This will allow Karolina to get around without the assistance of someone pushing her chair as she does not have the strength.

What is Spinal Muscular Atrophy?

Spinal Muscular Atrophy (SMA) is a motor neuron disease which affects the voluntary muscles that are used for activities such as crawling, walking, head and neck control, and swallowing.

- #1 genetic killer of children under two
- One in every 6,000 babies is born with SMA
- 7.5 million Americans are carriers

DONATE

To Karolina @
